# What can you expect from the Product & Software Orientation Training course?

*UE SYSTEMS IS PLEASED TO INTRODUCE A ONE DAY PRODUCT & SOFTWARE ORIENTATION CLASS THAT WILL ASSIST WITH THE RAPID IMPLEMENTATION OF YOUR ULTRASOUND PROGRAM AND EDUCATE YOUR INSPECTORS IN THE CORRECT OPERATION AND ADVANCED FUNCTIONALITY OF THE UE SYSTEMS PRODUCTS*

**During this 1 day course, attendees will:**

➢ **Attain a thorough Understanding of Ultrasound and Why it is such a useful Inspection Technique**

➢ **Learn and practice the operation of the Ultraprobe Instrument and Menus**

➢ **Learn how to use Ultratrend DMS software:**

- ✓ Set up groups of points to test
- ✓ Upload points into the Ultraprobe (UP9000/UP10000 & UP15000 Touch only)
- ✓ Establish baseline readings on a "Pilot" group (Approx. 50 - 200 test points based on access and configuration)
- ✓ Download and organize the pilot group in DMS (UP3000/UP9000/UP10000 & UP15000 Touch only)
- ✓ Record and store sound files in the pilot group (UP10000/UP15000 Touch only)

➢ **Create a database, take baseline and subsequent readings, download information into DMS, and generate a report**

➢ **Wrap Up and Summary**
